Tuesday, 15 February 2011 01:09 - Last Updated Wednesday, 18 June 2014 04:49

Objective:

- To create awareness among students on energy efficiency through interactive activities and games
- To ensure students understand the concept of energy efficiency
- To ensure students practice energy efficiency despite of acting as representative to disseminate information on energy efficiency to their schoolmates, family members and friends

Programme Description:

There will be 30 primary school programme to be carry out within year 2014 in Peninsular Malaysia only. The programme will be held at a selected school of a particular area. Each participant will be given a programme kit, which helps them to follow through the activities. It is a half day programme and fully interactive.

Expected Output:

The participants will have a clearer picture and better understanding on energy efficiency and the importance of it. Continuous assessment of the programme as well as information dissemination can be done through the SWITCH! website.
